PERSONAL SUMMARY

Edson is a Full-stack developer / UX | UI with a strong programming background and commercial experience. Ability to think through a problem coupled with the confidence to make ideas heard. A proven ability to maintain and enhance company software with the aim of improving operational functionality in line with business requirement.

I am currently looking for a software developer opportunity that will allow me to work alongside an expert team of developers. Thereby helping to drive my career progression to more senior roles in the future.
